TR-808

Computer Controlled

Ladies and gentleman! This time we've decided to collect some classics in one place! We took vintage gear, including the most popular drum machine ever - the TR-808, and produced some great sounding drum one shot samples. Our main purpose was to get high quality drum samples with warm sound and best dynamics. Finally we think that we've made it! What more can we say? Perfect for all genres, from urban, trap, south, hip hop, r&b to club and pop music. To get this pro and unique sound we've used vintage SSL, Manley and Api hardware, recording everything on the Apogee Symphony. You will simply love this drum pack!
