

## BITTERSWEET BEATS

“Bittersweet Beats” is a collection of loops organized in ten construction kits with tempos ranging from 75 to 90 bpm. The package contains beats that are warm and mellow as well as ones that are heavy and powerful. Loops from “Bittersweet Beats” can be used in wide range of styles such as R&B, rap, neo-soul, hip-hop, abstract or instrumental hip-hop, but also in dubstep, electro, ambient or whatever comes to your head! The fat melodic bass lines, harmonically and sonically intricate keys and polyrhythmic glitchy drums were created from scratch with the use of Access Virus TI synth recorded through NE72 preamp and samples from various drum machines. In order to achieve the best quality of sound all tracks were mixed with the use of such high quality equipment as Millennia Media Twincom, Avalon 747, Teletronix LA2A, Teletronix 2-LA2, Empirical Labs Distresors, Alan Smart Compresor C1, Millennia Media NSEQ-2, Avalon 747, Neve 8803 and Prism Sound Dream AD-2 converter.

As bonus we included a special sample pack folder containing “Bittersweet Beats” sounds with loops leveled in a special way that allows them to be used in a tune, with only slight corrections. Moreover, loops from this folder are additionally processed with the use of high quality gear and plug-ins that make them a good choice both for beginners and more advanced producers who exactly know what they want.

### LICENSE AGREEMENT

All samples in this package are covered by a Royalty-Free license, it means you CAN use those samples as part of your commercial and non-commercial MUSIC COMPOSITIONS for CDs, DVDs, VIDEO, MOVIES, GAMES, WEBSITES, PRESENTATIONS etc. Sounds that You have purchased are licensed NOT sold to You.
